The LifeWave X39™ is clinically proven to provide the body with a level of health and vitality that you have not experienced since you were in your youth. Using our patented form of phototherapy, LifeWave X39™ patch elevates the peptide GHK-Cu which is known to decline with age. When elevated, this peptide activates the body's stem cells, providing incredible benefits, such as better wound healing, heightened energy, deeper sleep, rapid pain relief and even a reduction in the appearance of lines and wrinkles.

Backed by multiple clinical studies and 20 years of development, the LifeWave X39™ patch has been demonstrated to providing the following health benefits:

What Is Phototherapy?

The science of phototherapy, which has been around for about 100 years, uses light to improve the health of the body. And modern forms of phototherapy such as Low-Level Laser Therapy, which helps reduce wrinkles and treat other more serious skin conditions, are very well understood scientifically.

But this idea is nothing new. As far back as two thousand years ago, the ancient Greeks had a centre for studying the effects of different coloured lights on the body. Even the ancient Egyptians, who promoted health by focusing sunlight through coloured glass on certain areas of the body, understood this concept.

How Our Phototherapy Patches Work

Your body emits heat in the form of infrared light. Our patches are designed to trap this infrared light when placed on the body, which causes them to reflect particular wavelengths of light. This process stimulates nerves on the surface of the skin which in turn produces specific health benefits that are unique to each LifeWave patch.

INSTRUCTIONS

Place one LifeWave X39™ patch on the body. Apply the patch to clean, dry skin in the morning. Patches may be worn for up to 12 hours before discarding. Keep well hydrated while using this product.

WARNINGS

Remove immediately if you feel discomfort or skin irritation occurs. Do not reuse patch once removed from the skin. For external use only. Do not ingest. Do not use on wounds or damaged skin. Ask a health professional before using if you have a health condition, any questions or concerns about your health. Do not use if pregnant or nursing.
