

If You Have Any of These Health Problems You May Need to Detoxify

If you have symptoms such as these, your body may be loaded with damaging Toxins: Headaches, Migraines, Circulation Problems, High Stress, Allergies, Chronic Sinus Drainage, Constipation, Weight Issues, Gout, Sleep Problems, Bloating and Gas, various kinds of Inflammation.

I don't remember how I came across the Zeoboost product, but I'm glad I did. The late Sandy of Sandy's Health Foods told me about Zeolite's detoxing capabilities years ago, but her Zeolite product did not test strong for me. In contrast, ZeoBoost muscle-tests for me at 9.5 out of a perfect 10. That's as high a score as I see for any health item I test and use. I've muscle-tested many people and their ZeoBoost scores ranged mostly from 9 to 9.5 out of 10.

Here's a quote from a report evaluating the suitability and safety of zeolite for use as a detoxification agent. This comes from a compilation of multiple studies regarding the applications of zeolite (also called clinoptilolite) for humans and animals: <https://www.frontiersin.org/articles/10.3389/fphar.2018.01350/full>

"The results published thus far show that clinoptilolite does not affect the homeostasis of trace elements and micronutrients, but acts rather selectively on heavy-metals and toxicants."

Zeoboost is relatively inexpensive compared with other zeolite brands I've seen, at least in part because you are not purchasing water, just the dry product. Take a look to discover its other advantages: <https://www.glycolife.net/zeoboost>.

Please do read the dosing recommendations because there is an interesting paradox you should be aware of *before* you begin your detoxing: sometimes using more actually reduces your detox symptoms. Phyllis and I did not experience any uncomfortable effects from Zeoboost. Your experience may differ depending on your body's toxicity.

Contact Phyllis or me if you want us to muscle-test you to determine Zeoboost's appropriateness for your improved health. 513 724 HEAL (4325).
